Re: Notice of Ex Parte Presentation in CC Docket Nos. 96-45, 98-171, 90-571, 92-237,  
99-200, 95-116, 98-170, and NSD File No. L-00-72

---

Dear Ms. Dortch:

On December 3, 2003, F.J. Pollak, President and CEO of TracFone Wireless, Inc. ("TracFone") and I met with Christopher Libertelli, Legal Advisor on Wireline Competition Matters to Chairman Michael Powell.

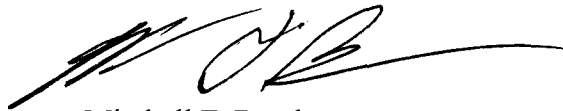

During this meeting, we reiterated the positions that TracFone has taken in its filed comments and prior ex partes in the Universal Service Contribution Methodology proceeding. Specifically, we discussed the anticipated continued growth in overall interstate telecommunications services, including wireless services, and refuted the notions that interstate revenues will decline and are less stable than connections to the public switched network and/or working telephone numbers. As evidence of this continued growth, we provided Mr. Libertelli with two charts containing data from the Telecommunications Industry Association's 2003 Market Review and Forecast. These data demonstrate that toll and wireless revenues will continue to grow each year through 2006, and that revenues derived from other telecommunications (including high speed Internet access, unified messaging, videoconferencing, and audioconferencing) will continue to grow. Copies of those charts are enclosed herewith. In this regard, we expressed the position that the funding base should be broadened to include other telecommunications, including those which utilize the Voice over the Internet Protocol. We also discussed the fact that the wireless safe harbor is no longer necessary

Ms. Marlene Dortch

and is reducing the amount of contribution to the Universal Service Fund which is derived from interstate wireless services.

Pursuant to Section 1.1206(b) of the Commission's Rules, this notice is being filed electronically in the above-captioned dockets. If you have any questions regarding this matter, please feel free to contact undersigned counsel for TracFone.

Sincerely,

A handwritten signature in black ink, appearing to read 'MFB', with a long horizontal flourish extending to the right.

Mitchell F. Brecher

enclosure

cc: Mr. Christopher Libertelli
